

Remarks

The description of Figures 12A-12D has been corrected by providing a new substitute paragraph in the specification. This correction is believed to be the nature of a typographical correction. The content of the original brief description refers to the substance of Figures 12A-12D and not just to Figures 12A and 12B as stated in the original version. Note the reference to the “method of fabricating a card with a living hinge“, which is seen primarily in Figures 12C-12D. Therefore no substantive change to the original brief description in this paragraph is believed to be required. An additional grammatical correction has been included in this amendment to the specification.

The claim listing is included as would be required in an amendment. No new amendments have been made to the claims. This listing is included, should its inclusion be deemed necessary for a complete response. In the event inclusion of this claim listing is deemed inappropriate in this response, applicant’s attorney requests that the claim listing be disregarded. Inclusion of this claim listing should not be interpreted as a request to reopen prosecution.
